

## Capacity Building

Professional Development Courses designed for upskilling educational staff, parents and volunteers.

### Capacity Building Program

Royal Far West (RFW) Capacity Building Program provides Professional Development Courses utilising technology to deliver a mixture of online tutorials, resources, and live video feedback sessions with senior allied health clinicians. It is designed to empower teachers, school support staff, parents/caregivers and/or volunteers to better support preschool or school-aged children experiencing difficulties with speech and language, sensory and motor development, anxiety and emotional wellbeing.

### Course Description

Courses can be selected based on identified needs. A maximum group of 6 attendees is recommended to ensure the best outcomes are achieved from the feedback and evaluation sessions with senior allied health clinicians.
